

Tracey Concrete are recruiting for a **Machine Operator!**

## **Role Overview:**

Our machine operators are responsible for the efficient operation and maintenance of machinery used in the production of precast concrete products. This role ensures that the machinery functions optimally and that the products meet the required quality standards.

As the **Machine Operator**, you will be responsible for:

### **1. Machine Operation:**

- Operate machinery used in the production of precast concrete products, including mixers, casting machines, cutting tools, and other specialized equipment.
- Adjust machine settings to ensure optimal performance and quality of our products.

### **2. Quality Control:**

- Inspect finished products for defects and ensure they meet quality standards.
- Conduct routine checks and maintain records of production quality.

### **3. Maintenance:**

- Perform regular maintenance on machinery to prevent breakdowns and ensure longevity.
- Troubleshoot and resolve minor mechanical issues, escalating major issues to our maintenance team.

### **4. Safety Compliance:**

- Follow all safety protocols and guidelines to ensure a safe working environment.
- Report any safety hazards or incidents to the supervisor immediately.

### **5. Production Efficiency:**

- Monitor production processes to ensure efficiency and minimize waste.
- Collaborate with team members to meet production targets and deadlines.

### **6. Documentation:**

- Maintain accurate records of production output, machine maintenance, and any incidents.
- Complete necessary paperwork for quality assurance and production tracking.

### **7. Team Collaboration:**

- Organise a team of general operatives to ensure daily production targets are met.
- Work closely with other operators, supervisors, and quality control personnel.
- Assist in training new operators and sharing best practices.
- Any other duties as requested by Management to support the efficient running of the business

## **Essential Criteria:**

- Previous experience in a manufacturing or production environment, preferably in the concrete or construction industry.
- Must be able to work effectively both as part of a team and individually
- Excellent communication skills (both written and verbal skills)
- Must be able to work under pressure and to tight deadlines
- Ability to work on their own initiative
- Have good decision-making skills
